

**BE THE ONE
BE THE BEST**

JSK
MACHINERY
ISO 9001 : 2015 CERTIFIED COMPANY

**MANUFACTURER OF ICE CREAM MACHINE
& DAIRY EQUIPMENTS**

BATCH PASTURIZER TANK

CAPACITY: 100 / 200 / 300 / 500 / 750 / 1000 LTR

Features:

- High Capacity Faster Heating Electrical Heaters
- Double Jacketed Tank Made Of AISI 304 SS.
- Digital Temperature Controller.
- Occupies Minimum Space.
- Hygienic Construction & Easy To Clean
- Easy to operate panel design .
- Standard make gearbox & motor for agitator
- Special design agitator for perfect mixing.

HOMOGENIZER MIXTURE

Capacity :- 150 / 300 / 500 / 1000 LPH

Features:

- Covering Panel Made From Stainless Steel 304.
- Two Stage Homogenization
- Manually Pressure Adjustment By Hand Wheel
- Sterlite Coated Seat Ball Valves For Suction And Discharge Parts
- S. S. Diaphragm Type Sanitary Design Pressure Gauge.
- High Strength Steel Eccentric Shaft And Connecting Rod Assembly
- Splash Lubricating System
- Design For CIP Cleaning.

CONTINUOUS ICE CREAM FREEZER

Capacity :- 100 / 200 / 300 / 400 / 600 LPH

Features:

- Compact & Robust Design.
- The controls are easy to operate.
- Provide Hardness controller to control consistency of ice cream.
- Specially crafted beaters with self aligning blades.
- Metal hard chrome plated S.S & brass cylinder Covered with Stain less steel cover and puff insulation.
- Body frame and covering panels are made of stainless steel .
- Digital Micro controller base easy operational panel design.
- Safety Valve For Mix Pressure Control.
- Long life S. S. diaphragm pressure gauge.

FRUIT FEEDER MACHINE

CAPACITY :- 400 /600/ 1000 /2000 LPH

Features:

- Frame and covers are made from Stainless steel.
- Blades made from special nickel alloy metal .
- Special design mono block rotor housing for perfect mixture
- Separate micro VFD drive for rotor and ingredient feeder
- Vary speed with electronic controller
- S. S. hopper with mixer for storage of ingredient
- Very low maintenance and easy to operate.

RIPPLE MACHINE

CAPACITY :- SUITABLE WITH 100 TO 1000 LHP CONTINUOUS FREEZER.

Features:

- India's 1st ripple machine with gear pumps for continuous ripple flow.
- Frame And Covering Panel Made From Stainless steel.
- Special Design Gear Pumps For Viscous Ripple
- Suitable For Viscous Syrup like caramel , honey , fruit syrup.
- DESIGN With Internal Piping, By Pass Arrangement And Drain Plug
- Very Less Noise And NO Vibrations.
- Variable Speed Allows To Match The Freezer Speed.

CANDY MACHINE

CAPACITY :- 4 MOULD TO 32 MOULD

Features:

- Outer Body Ss 304, Inner Body Ss316
- Stylish Body Design With Rigid Construction
- Easy To Operate And Low Maintenance
- Water Cool & Air Cool Condenser
- R404a & R22 Refrigerant Gas .
- Danfoss & bitzer make compressor used.
- Chocolate Deeping & Defrost Tank Available

ICE CREAM CUP & CONE FILLING MACHINE

CAPACITY :- 3000 / 6000 CUP & CONE PER HOUR

Features:

- All Contact Parts Made Of Ss304
- User Friendly Touch Screen Base Plc Control For Easy Operation
- Can Fill Up To 100 MI Cup & Cone
- Compact & Easy To Maintain
- Pneumatic base cam operated machine
- Variable Speed Allows To Match The Freezer Speed
- Specially Design Cam Profile For Long Life Capacity
- Change Over From One Cup / Cone Size To another Is Easy And Fast.

ICE CREAM SANDWICH MACHINE

Features:

- Totally Hygienic Process For Sandwich Ice Cream
- All Parts Made From Ss304 & Aluminium
- Fully Automatic And Easy To Operate.
- Compact & Robust Design
- Variable Speed Allows To Match The Freezer Speed
- Electronic Controller For Easy Operation
- Continuous And Adjustable Production Speed.
- Special Design Suits For Self Alignment Of Biscuits.

AGING TANK

CAPACITY : 100/200/300/ 500/750/1000 LTR

Features:

- Double Jacketed Tank Made Of AISI 304 SS.
- Digital Temperature Controller.
- Occupies Minimum Space.
- Hygienic Construction & Easy To Clean
- EMERSON OR EQUIVALENT MAKE REFREGERATION UNIT FOR FASTER COOLING.
- Easy to operate panel design .
- Standard make gearbox & motor for agitator
- Special design agitator for perfect mixing .

OUR OTHER IMPORTANT EQUIPMENTS

ONLINE PASTURIZER PLANT

MINI MILK PLANT

INSTANT CHILLER

HARDNER

POWDER MIXTURE

SEMI AUTOMATIC CONE FILLING MACHINE

CASATA CUTTING MACHINE

PLATE HEAT EXCHANGER

AUTOMATIC CONTINUOUS FREEZER

ACF - 600

Features:

- Robust & Compact Design
- Uniform Product Quality
- 100-600 Litres Of Ice Cream Per Hour
- Siemens Touch Panel – Easy To Operate
- Highly Précised Mix & Cream Pump With Cip Mode
- Special Designed Cylinder /Beater & Blades
- – out put Ice Cream Temp. Is-5 Deg With Strong Refrigeration System .
- Accurate Over Run Controlled By Mass Flow Controller .
- Machine is equipped with Siemens plc controller.
